

# Greenbuild Los Angeles 2016

## GREEN LODGING PROGRAM

## Free LEED Gap Assessment for Your Hotel.

With an expected 30,000 attendees and an estimated 32 million dollars of business converging on LA in October 2016, Greenbuild is the largest green building conference in the country. The Green Lodging Program can help your property capitalize on this opportunity, while benefiting your triple-bottom line. USGBC-LA and the LABBC have joined forces to help hotels within a 1.5 mile walking radius of the LA Convention Center (conference location) earn LEED O+M, or ID+C certifications ahead of the conference. All hotels within this radius are eligible for a free LEED gap assessment report to understand what is needed for their hotel to earn a prestigious LEED certification. Four leading Los Angeles-based LEED consulting firms will provide complimentary gap assessments: Gaia, Leading Edge Consultants, Verdani Partners, and Verdical Group. If you are an eligible hotel who would like to take advantage of this opportunity, or for more information, please email: [info@la-bbc.com](mailto:info@la-bbc.com).
