

Time	Main Hall	Conference Room A (Water Heating Lab)	Conference Room B (Climate Control)	Conference Room C (MultiPurpose)	Conference Room D (Comm'l Auditorium)	Conference Room E (Combustion Demo)	Conference Room F (Residential Room)	Energy Options Room
7:00	Registration, Breakfast, and Visit Exhibitors							
8:00	Welcome: SoCalGas (Main Hall)							
8:15	Morning Keynote: Antwi Akom (Main Hall)							
9:30	2020 Vision: Green Building Megatrends - How larger trends surging in the outside world will affect green building in the next 5-10 years.	Walking Our Water Conservation Talk at LADWP Facilities	It Can Be Done. Creating a One-Stop-Shop for Resource Efficiency: A Public-Private Partnership in the Delivery of Energy and Water Efficiency Programs	Inside and beyond the nexus: How to deal with the drought's impacts on the economics of recycled water	WELL ain't that a hoot...WELL's Lessons Learned	California Friendly®: Maintaining Sustainable Landscapes and Communities	Passive House	
10:30	Break - Visit Exhibitors							
10:45	Proving Zero Energy: the Good, the Bad, and the Getting Better	Achieving Energy Efficiency in Water Operations: A Model for Speed and Scale	Understanding Savings By Design Through the Eyes of Four Architects	LA Metro: The Challenges and Opportunities of Connecting EV's to Transit	Physiology to Rating Systems: Linking Science to Design for Our Children	A Toolkit for SMART Parks	The Villages at Westview: Redeveloping a Community Around Sustainability and Social Equity Principles	Workshop: Fundamentals of Building Resilience
11:45	Lunch - Network and Visit Exhibitors							
12:30	USGBC-LA Annual Meeting & Municipal Recognition Awards (Main Hall)							
1:10	Afternoon Keynote Panel: Not Why, But How: Diversity, Equity and Sustainability George Bandy Jr., Heidi Creighton, Gabrielle Bullock, Caroline Kreiser (Main Hall)							
2:00	Local Government Approach to Deep Energy Retrofits	Energy Benchmarking	2016 Greenbuild Legacy Project Retrospective and a Look at Philanthropy in Green Building	The Arc Platform Demystified: Implementing Across Portfolios	Building Behavior Change: LEEDing the way to WELLness	Strategic Partnerships Drive Technology Advancement for Infrastructure Projects	Updates to California's Title 24 2016 Energy Code	
3:00	Break - Visit Exhibitors							
3:15	Mixer Setup	Urban Harvest: Toward a Resilient Food Infrastructure for Healthy Cities	The Efficiency-Comfort Nexus: Balancing Occupant Comfort, Energy Efficiency and Water Conservation in Buildings	Maximizing the Value of Public Facilities through Diversity and Inclusion	LEED, LBC, and WELL: How do they compare?	SITES	Design of High Performance Multi-family Residential buildings	Workshop: Fundamentals of Building Resilience
4:15	Mixer: Eric Corey Freed (Main Hall)							
6:00	End Event
